

WE NEED YOUR HELP!!

On April 3, 2017, the Hot Mix that the City of Muncie uses to patch potholes in the city became available to use. Since that date, the Street Department has ran 2 crews every day patching potholes. As of today's date, we have had 39 working days since the Hot Mix became available...26 of those days it has been too rainy for the Hot Mix to be used....so we have had 2 crews patching for 13 days. In those 13 days, the crews have patched 3,795 potholes.

But as the rainy season is starting to fade into the summer months....we want your help in locating the streets that we need to focus on. Please report the potholes. We want to get them repaired.

We have several ways to report the potholes.

Twitter

- Tweet @MunciePotholes

E-Gov

- Go to Cityofmuncie.com
- Click on the Street & Public Works tab at the bottom of the page
- Then the first blue highlighted option is : Submit Issues (Pot holes repairs, traffic signal issues, etc)
- Fill out sheet & Send in request.

Call

- 747-4847
- 747-4848

Email
